KX-TG8051HK

1.45吋TFT彩色顯示屏

TFT液晶體顯示屏解像度高，色彩格外鮮艷

High-resolution TFT Colour LCD

The backlit 1.45-inch screen is easy-to-read, and the simple menu screen lets you access functions without confusion. The TFT (thin film transistor) LCD lets you see both characters and colour images with a high clarity that wasn't possible with conventional STN (super-twisted nematic) displays.

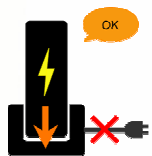

子機後備供電

停電時，已充電的子機暫時供應電源到主機，維持撥號及接聽來電功能

Power Back-up Operation

During an electric power failure, you can supply the power stored in your handset to the base unit, so you can make calls even when the power is out.

聲音均衡器：可調較聲音系統

不同年齡人士可按需要調較話音音頻

Equalizer: Customized Sound System

The pitch of sounds that can be easily heard differs according to each person's age. The Customized Sound System lets you adjust the pitch of phone voices, so users of all ages can talk comfortably with sounds that are easy to hear.
